

UX/UI INTERN ROLE

At Sage Corps, we work with students to find the right role based on their experience, skills and qualifications. This intern role description will give you an idea of the type of responsibilities that will be assigned to you during the course of your program. The descriptions below are based on a previous startup role we've offered. However, please note that this internship will vary depending on the startup partners and available roles for that term.

About the Startup:

This startup is a consulting and training company that supports organizations to measurably improve decisions. We use findings from behavioral research and organizational development as well as state-of-the-art methods from artificial intelligence. Our clients directly benefit from the latest cutting-edge research.

Internship Overview:

This startup has 10 employees. We are looking for a UX/UI Intern to assist in revamping the company website and take on internal things that have been overlooked. This internship will be a 4 day work week with 2 out of the 4 days required in person.

Responsibilities:

- Identify any problems with the company website
- Develop animations
- Revamp website and Implement a new interface
- Create pitch decks
- Revamp of company branding

Qualifications:

- Expertise with Adobe Illustrator & Adobe Photoshop
- Proficient in Figma and React
- Good at solving interface and interaction design problems, offering not just one but a variety of viable solutions.
- Strong communication skills and the ability to effectively engage and convey ideas
- Ability to work independently and as part of a team.
