

SOFTWARE DEVELOPMENT INTERN ROLE

At Sage Corps, we work with students to find the right role based on their experience, skills and qualifications. This intern role description will give you an idea of the type of responsibilities that will be assigned to you during the course of your program. The descriptions below are based on a previous startup role we've offered. However, please note that this internship will vary depending on the startup partners and available roles for that term.

About the Startup:

You will be joining the first food delivery and takeout comparison platform. You'll help build a product that makes finding the perfect meal or snack easy, convenient, and affordable. The platform allows users to compare all food delivery options in their neighborhood, including restaurants and local shops that may not be visible on larger delivery apps. You'll contribute to a system that helps users compare delivery prices, delivery times, and available discounts so they can choose the best option for their needs.

Internship Overview:

As a small startup with currently 5 employees, you will be joining a team that is gradually growing. You will work closely with the software development lead and the development team to design, develop, and maintain the web application. This internship takes place in the office 5 days a week.

Responsibilities:

- Design, develop and maintain our web application
- Writing high-quality code, including testing, debugging and documenting work
- Work on improving the performance and scalability of our platform
- Researching, investigating and fixing a wide range of technical issues
- Collaborating with senior leaders
- Approaching problems and creating solutions
- Proactively learning about new technologies

Qualifications:

- Proficiency in JavaScript and its frameworks, such as React and Node.js.
- Knowledge of HTML, CSS, and web development best practices.
- Familiarity with version control systems, such as Git.
- Strong problem-solving skills and attention to detail
- Strong communication and presentation skills
- Self-motivated and results-oriented
- Ability to interact with cross-functional teams
